Migrationsverket
Case #51375190

RE: FLIGHT FOR FREEDOM

Migrationsverket,

- (1) This notice serves to address my due diligence on the key matters of my case.
- (2) I requested all communications be documented in detail for accountability.
- (3) After 3 years, I withdrew my case before a judgement or update was given.
- (4) After repeated attempts to enter a non-requested appeal on my behalf,**
- (5) I wrote to all parties involved that I wished to end this process.
- (6) A postponement was entered on **an appeal that I never requested.**
- (7) That postponement was set for a decision on March 12, 2021.

- (8) I write to address what the MigrationSverket system is allowing to occur.
- (9) It is called a **"Catch-22"** and is defined as: an organizational assumption,
- (10) an unwritten law of informal power that exempts the organization from
- (11) responsibility and accountability, and puts the individual in the absurd position
- (12) of being excepted for the convenience or unknown purposes of the
- (13) organization.

- (14) The MigrationSverket "Catch-22" is seen and shared in this communication.
- (15) Trusting the directions of MigrationSverket from the start of the asylum
- (16) process, up until the writing of this communication, has allowed many
- (17) unresolved violations to occur and **documented wrong-doings to be**
- (18) **overlooked.** This is a declaration for the record that I will not fall subject to a
- (19) Catch-22.

Kind regards,

Shaima Mohammed
